名前 _____

(1) $56 \div 7 = \square$

$\square \times \square = 56$

(2) $24 \div 3 = \square$

$\square \times \square = 24$

(3) $16 \div 8 = \square$

$\square \times \square = 16$

(4) $12 \div 3 = \square$

$\square \times \square = 12$

(5) $14 \div 7 = \square$

$\square \times \square = 14$

(6) $81 \div 9 = \square$

$\square \times \square = 81$

(7) $42 \div 7 = \square$

$\square \times \square = 42$

(8) $63 \div 9 = \square$

$\square \times \square = 63$

(9) $42 \div 6 = \square$

$\square \times \square = 42$

(10) $28 \div 4 = \square$

$\square \times \square = 28$

(11) $12 \div 2 = \square$

$\square \times \square = 12$

(12) $10 \div 5 = \square$

$\square \times \square = 10$
